SPECIAL FEATURES

Swiss Quality

Products with the Q-Plus certification comply with European standards, and abide by stringent Swiss standards as defined by Suissetec/VSA. LAUFEN ceramic products are compliant with these Swiss quality standards and are recommended accordingly.

LAUFEN Green Mission

LAUFEN is committed to protecting the environment, placing great emphasis on sustainable manufacturing processes in regard to energy, water and materials uses. LAUFEN implores efficient and eco-friendly practices across all stages of production – from product development to marketing materials. For example, LAUFEN uses the waste heat generated in the production process to dry our ceramic pieces.

LAUFEN's production sites operate in accordance with strict, international environmental principles. The Swiss Agency for Efficient Energy Use has awarded Keramik LAUFEN AG its prestigious label for being actively involved in voluntary climate protection. Additionally, LAUFEN Austria AG- with its production sites at Wilhemsburg and Gmunden- was awarded the EMAS environmental prize for outstanding environmental performance. Overall, LAUFEN supports and promotes active environmental policies; policies that are embedded in the company's principles and upheld by our workforce around the world.

Water Sense®

LAUFEN Bathrooms has partnered with WaterSense - a program of the Environmental Protection Agency. Products bearing the WaterSense label:

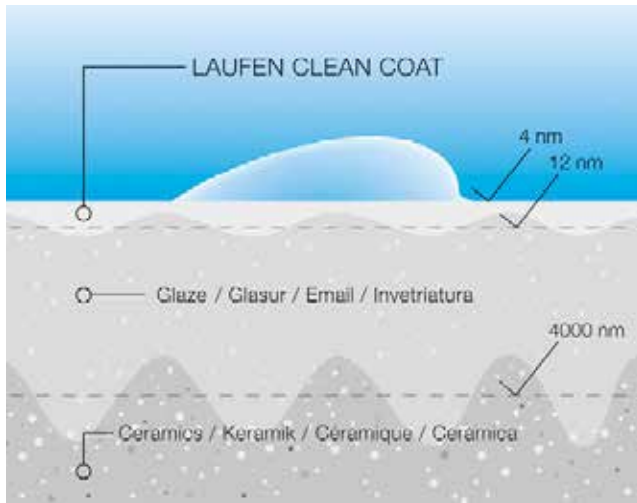

- Perform as well or better than their less efficient counterparts.
- Are 20 percent more water efficient than average products in that category.
- Realize water savings on a national level.
- Provide measurable water savings results.
- Achieve water efficiency through several technology options.
- Are effectively differentiated by the WaterSense label.
- Obtain independent, third-party certification.

LAUFEN's floor mount and wall hanging water closets have been certified to meet the rigid requirements of the WaterSense program. These products meet the WaterSense requirements for both minimal water usage and waste removal exceeding 350 grams. Frequently referred to as High-Efficiency Toilets (HET), LAUFEN's dual-flush technology is used throughout the product line to achieve its HET certification.

SPECIAL FEATURES

LAUFEN Clean Coat (LCC)

The LAUFEN Clean Coat (LCC) logo can be seen on the Alessi One bathroom collections. LCC is one of the most groundbreaking ceramic finishes on the market; it is virtually poreless and smooth to the touch. This sophisticated ceramic finish ensures that particles of dirt and bacteria can be simply rinsed off with water, thus, the ceramic stays clear of debris and is easier to clean. Due to the glaze-in-glaze method, where the LCC glaze is directly melted with the ceramic, the smooth finish of LCC remains hard and robust.

ADA Compliant

What does "ADA Compliant" mean?

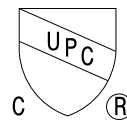

The Americans with Disabilities Act (ADA) provides greater safety and comfort for individuals living with physical or challenging impairments. ADA regulations apply on both federal and state levels, however states have the ability to modify federal mandates or create their own codes.

Due to the myriad variables associated with the plumbing industry, manufacturers such as LAUFEN do not have a singular agency that would issue a product as ADA-approved in that proper installation to the codes is a mandatory component of compliance with ADA rules. LAUFEN has designed certain products that we feel can become part of an ADA compliant bathroom when installed according to regulation. We have designated the ADA compliance of these products in our Price Guide with the ADA icon. While we believe these products will be acceptable for ADA installations, we cannot guarantee that the product will be found acceptable in all locations.

cUPC/ASME Compliant

The Uniform Plumbing Code (cUPC) and American Society of Mechanical Engineers (ASME) are trade organizations that cooperatively meet to create mechanical design and test routines for plumbing products. These are trade organizations tasked with creating guidelines for safe and interchangeable products that provide value for consumers and competitiveness among manufacturers. All of LAUFEN Bathroom ceramic products (unless noted otherwise) meet the design requirements and laboratory testing demands of these organizations. Organizations that provide this testing routine include the International Association of Plumbing and Mechanical Officials (IAPMO Group), whom has issued several of LAUFEN's certifications.

Products marked (special order) may have special delivery requirements.

A PLACE FOR DIVAS.
AND DEEP DIVES.

// THIS IS THE STORY ABOUT A PLACE OF UNKNOWN
BEAUTY. DESIGNED FOR HUMANS, SHAPED BY
THE ELEMENTS. FAR AWAY FROM YOUR EVERYDAY LIFE.
BUT EVERY MORNING YOU WILL ASK YOURSELF:
HAVE I BEEN HERE BEFORE?
OR IS THIS JUST A DREAM?

// EIN ORT UNGEAHNTER SCHÖNHEIT. FÜR MENSCHEN
GEMACHT, VON DEN ELEMENTEN GEFORMT.
EIN ORT, AN DEM DER ALLTAG IMMER GLEICH WEIT
ENTFERNT IST. UND AN DEM SIE SICH JEDEN MORGEN
FRAGEN WERDEN: BIN ICH NOCH DER GLEICHE,
DER ICH GESTERN WAR? ODER IST DAS ALLES DOCH
WIEDER NUR EIN TRAUM?

// C'EST L'HISTOIRE D'UN LIEU D'UNE BEAUTÉ INCONNUE.
CONÇU POUR DES HUMAINS, MAIS FORMÉ PAR
LES ÉLÉMENTS. UN LIEU TRÈS LOIN DE VOTRE VIE DE
TOUS LES JOURS. ET, CHAQUE MATIN,
VOUS VOUS DEMANDEREZ: EST-CE QUE JE SUIS DÉJÀ
VENU LÀ? OU BIEN N'EST-CE QU'UN RÊVE?

// QUESTA È LA STORIA DI UN LUOGO DI SCONOSCIUTA
BELLEZZA. PROGETTATO PER LE PERSONE,
PLASMATO DAGLI ELEMENTI. LONTANO DALLA TUA
QUOTIDIANITÀ. OGNI MATTINA PERÒ TI CHIEDERAI:
SONO GIÀ STATO QUI? O È SOLO UN SOGNO?

PRO

LAUFEN PRO

LAUFEN

For quite some time good design has no longer been the sole privilege of those who have powerful financial means. It is thanks to current industrial production methods and designers like Peter Wirz of «Vetica», who subscribe to optimal feasibility for their creations, that ceramic lines like LAUFEN pro are developing. This development is welcomed by designers as well as by customers.

Gutes Design ist heute längst nicht mehr nur einer zahlungskräftigen Käuferschicht vorbehalten. Dank industrieller Produktionsweise und Designern wie Peter Wirz von «Vetica», die bei ihren Kreationen auch stets die optimale Machbarkeit vor Augen haben, können Keramikserien wie LAUFEN pro entstehen. Das findet nicht nur der Designer gut, sondern vor allem auch der Kunde.

Aujourd'hui, le beau design n'est plus réservé à une caste de clients aux moyens financiers illimités. Grâce à la production industrielle et à des designers tels que Peter Wirz de «Vetica» qui, dans leur créativité, ont toujours donné à l'esprit une faisabilité optimale, des séries céramique comme celle proposée avec LAUFEN pro sont désormais chose possible. Le designer y trouve certes son compte, mais aussi et surtout le client.

Oggi il bel design non è più riservato solo ad una fascia alta di mercato. Grazie ai metodi di produzione industriale ed a designer come Peter Wirz della «Vetica», che tengono sempre in considerazione la fattibilità di ogni creazione, è nata la serie di sanitari LAUFEN pro. Perfetta non solo per i designer ma anche e soprattutto per i clienti.

reddot award 2014
winner

The Swiss designer Peter Wirz is also responsible for LAUFEN pro S. With heaps of sensitivity, he brought about a systematic, production-optimised evolution of the pro concept: Thanks to its slim silhouette and clearly-defined radii, the washbasin has a light and elegant appearance. The deep bowl means that it's also functionally appealing. The aesthetics of LAUFEN pro S therefore definitely take the range in the direction of LAUFEN's premium design lines – while remaining affordable by all.

Mit viel Fingerspitzengefühl verfolgte Designer Peter Wirz bei LAUFEN pro S eine konsequente, produktionsoptimierte Evolution des pro-Gedankens: Dank ihrer schlanken Silhouette und den klar definierten Radien wirken die Waschtische leicht und elegant, das tiefe Becken sorgt für viel Funktionalität. Damit rückt die Ästhetik von LAUFEN pro S zweifellos in Richtung der Premium-Designlinien von LAUFEN – und bleibt doch für jedermann erschwinglich.

LAUFEN pro S est une création du designer suisse Peter Wirz. Avec beaucoup de doigté, il était en quête d'une évolution, conséquente et optimisée pour la production, du projet pro: Grâce à sa silhouette élancée et aux rayons clairement définis, les lavabos ont une apparence légère et élégante, la vasque profonde garantit une grande fonctionnalité. L'esthétique de LAUFEN pro S peut, sans le moindre doute, rivaliser avec les autres lignes au design hors pair signé LAUFEN – tout en restant abordable pour tous.

LAUFEN pro S è stata progettata dal designer svizzero Peter Wirz, che ha perseguito e ottimizzato con grande sensibilità l'evoluzione coerente del concetto che sta alla base della serie pro. Grazie alla sua linea slanciata e ai bordi arrotondati molto definiti, i lavabi hanno un aspetto leggero ed elegante, mentre la profondità del bacino garantisce un'elevata funzionalità. L'estetica di LAUFEN pro S si avvicina indubbiamente a quella delle linee di design premium di LAUFEN, pur rimanendo alla portata di tutti.

The bowl of the new **LAUFEN pro rimless WC** has no rim. There's no longer anywhere for dirt and deposits to hide; instead, thanks to an innovative and powerful flushing system, everything's flushed cleanly away with both the 6/3-litre version and the 4.5/3 litre version. Both public toilets and private bathrooms can benefit from the easy cleaning and great hygiene of this system.

Das neue **LAUFEN pro rimless WC** kommt ohne einen Spülrand aus. Schmutz und Anhaftungen finden hier keine Nische mehr, sondern werden dank eines innovativen, kraftvollen Spülsystems sowohl bei einer 6/3-Liter-Spülung als auch bei 4,5/3 Litern sauber weggespült. Von der vereinfachten Reinigung und dem Plus an Hygiene profitieren nicht nur öffentliche Sanitäranlagen, sondern auch Privathaushalte.

La nouvelle **toilette LAUFEN pro rimless** fonctionne sans rebord de rinçage. La saleté et les incrustations n'adhèrent plus, elle sont proprement rincées par un système de chasse d'eau puissant autant avec un volume de 6/3 litres qu'avec 4,5/3 litres. Non seulement les installations sanitaires publiques, mais aussi les ménages en soi profitent du nettoyage simplifié et de l'hygiène accrue.

Il nuovo vaso **LAUFEN pro rimless** è senza brida. In questo modo lo sporco e le incrostazioni non possono più aderire, ma vengono eliminate perfettamente grazie ad un sistema innovativo di potente risciacquo, sia da 6/3 litri che 4,5/3 litri. La maggiore semplicità di pulizia e la maggiore igiene sono vantaggi importanti non solo negli impianti sanitari pubblici, ma anche in quelli domestici.

LAUFEN PRO LIBERTY

Modern bathrooms suitable for wheelchair access translate convenience and function into good design. They play a considerable role in allowing people with special needs to lead more independent lives in their own homes.

LAUFEN pro liberty is an interesting proposition for private homes, hospitals, nursing and residential homes for the elderly. With its minimalist lines, it is perfectly matched to the LAUFEN pro bathroom suite series and, compliant with the standards, considerably increases comfort in bathroom use. LAUFEN pro liberty WC complies with DIN 18040 and SIA 521 500.

Moderne barrierefreie Bäder übersetzen Komfort und Funktion in gutes Design. Sie leisten einen wichtigen Beitrag zum selbstbestimmten Wohnen und Leben.

LAUFEN pro liberty ist für den Privathaushalt ebenso wie für Hospitäler, Pflege- und Seniorenheime eine interessante Lösung. Mit seiner reduzierten Linienführung passt es perfekt zur Komplettbadserie LAUFEN pro und macht die Badnutzung normgerecht erheblich komfortabler. Das LAUFEN pro liberty WC entspricht DIN 18040 und SIA 521 500.

pro liberty WC also available as a rimless version.

pro liberty WC auch als rimless Version verfügbar.

WC pro liberty aussi disponible en version rimless.

WC pro liberty anche disponibile nella versione rimless.

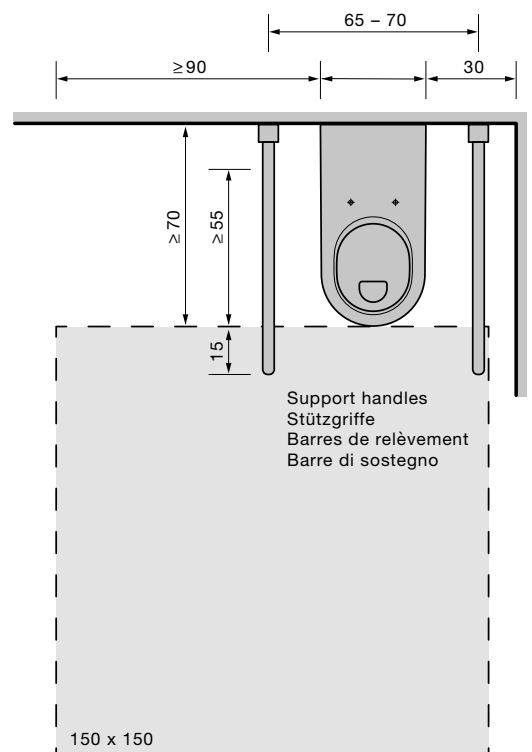

Les salles de bains modernes accessibles aux personnes à mobilité réduite présentent à la fois confort et fonctionnalité dans un design agréable. Elles contribuent fortement à l'autonomie dans la vie quotidienne.

LAUFEN pro liberty est une solution intéressante aussi bien pour les particuliers que pour les hôpitaux, centres de soin et maisons de retraite. Avec ses lignes sobres, il se fond parfaitement dans la série complète LAUFEN pro et rend l'utilisation de la salle de bain nettement plus confortable tout en restant conforme aux normes posées. Le WC LAUFEN pro liberty respecte les normes DIN 18040 et SIA 521 500.

I nuovi bagni senza barriere architettoniche combinano comfort e funzionalità con un buon design e consentono un utilizzo autonomo anche da parte degli utenti con problemi motori. LAUFEN pro liberty è una soluzione interessante per le abitazioni private, gli ospedali, le case di cura e le case di riposo per anziani. Con la sua linea sobria, si combina perfettamente con la serie completa da bagno LAUFEN pro e rende molto più confortevole l'utilizzo del bagno, in conformità dalle normative vigenti. LAUFEN pro liberty rispetta le norme DIN 18040 e SIA 521 500.

FEATURES AND BENEFITS: SANITARY WARE

Thanks to our convenient **lowering system** many of our WC covers and seats close gently and quietly. For easier cleaning, all LAUFEN seats can be removed with a simple hand movement. LAUFEN seats have been comprehensively tested: amongst others the test includes opening and closing 50,000 times.

LAUFEN WC-Sitze und -Deckel bieten dem Anwender viele Vorteile: So können alle WC-Sitze von LAUFEN für eine einfache und gründliche Reinigung mit einem Handgriff abgenommen werden. Umfangreiche Tests, zum Beispiel 50.000-faches Öffnen und Schließen, bürgen für beste Qualität. Und viele WC-Sitze und -Deckel von LAUFEN schließen dank komfortabler **Absenkautomatik** sanft und leise.

Grâce à leur confortable **abaissement automatique**, de nombreux sièges et abattants de WC LAUFEN descendent lentement et en silence sur la cuvette. Et pour qu'on puisse les nettoyer sans peine, siège et abattant s'enlèvent en un tour de mains. Les sièges de WC LAUFEN sont soumis à des tests très complets: entre autres, le test comportant 50 000 ouvertures et fermetures.

Grazie al **sistema di caduta rallentata** molti coperchi e sedili per WC di LAUFEN si chiudono in modo delicato e silenzioso. Per una pulizia agevole, tutti i sedili per WC LAUFEN sono rimovibili con un semplice movimento. I sedili per WC LAUFEN vengono testati in modo particolarmente accurato: tra l'altro devono superare un test consistente in 50.000 aperture e chiusure.

The installation dimensions of WCs are not always identical: In many renovation situations the LAUFEN **Vario outlet** can make it easier to connect the WC to the sewage network. Both horizontal and vertical outlet wall clearances of up to 350 mm for washout and 305 mm for washdown are possible.

Die Anschlussmaße von WCs sind nicht immer gleich: In vielen Renovierungssituationen erleichtert der **Vario-Abgang** von LAUFEN den sicheren Anschluss des WCs an das Abwassernetz. Sowohl ein waagrechter als auch ein senkrechter Abgang mit Wandabständen bis zu 350 mm beim Flach- und 305 mm beim Tiefspüler sind damit möglich.

Les dimensions de raccordement des WC ne sont pas toujours les mêmes: dans de nombreuses situations de rénovation, la **sortie Vario** de LAUFEN permet le raccordement en toute sécurité du WC au réseau d'évacuation. Elle permet aussi bien une sortie horizontale que verticale avec des distances par rapport au mur allant jusqu'à 350 mm pour la chasse à fond plat et 305 mm pour la chasse directe.

Le misure di attacco dei WC non sono sempre identiche: In diverse situazioni di ristrutturazione lo **scarico Vario** di LAUFEN facilita l'attacco sicuro del WC alla rete di acque reflue. Sono pertanto possibili sia uno scarico verticale sia uno orizzontale con distanze massime dalle pareti pari a 350 mm a fondo piatto e a 305 mm a cacciata.
